

## HD 200 Series

# PRO-CHEM ANALYTIK

---

## HD200

HD200 is a perfect application for compressed air applications

- Dewpoint: -60C to 40C
- 'A" NPT Fitting
- Calibration done at -60C
- Pressure Rating: 200PSI
- *Material: 304 SS*
- Mesh Filter Top (SS)
- Dimensions of Probe:  
Length: 4" (10.16cm)  
O.D.: 0.5" (1.27cm)
- Single Output only 4-20mA loop powered-(Probe Only)
- Resolution: 0.1C
- Accuracy: +/- 1.0C from =40c to -20C +/- 3.0C <- 20C

## HR200

HR200 is a perfect application for the environmental chamber applications.

- RH: 0-100%
  - (non-condensing/non-steam environment)
- Operating Temp: 200C
- Material: Polyimide High Temp(ultem)
- 'A" mounting clamp
- Back Filled Strain Relief – RTV
- Dimensions of probe:  
Length: 2.0" (5.1cm)  
O.D. : 0.5" (1.27cm)
- Single Output only 4-20mA loop powered-(Probe only)
- Accuracy: +/-1% @ 85%RH, 85C
